Oil Spilling in Private Property

CASE STUDY

Ideal Response offer a number of commercial and domestic cleaning services, including oil spill cleaning. Oil cleanup can be extremely difficult, with no guarantee of complete removal. We always recommend hiring professional oil cleaning companies for any oil spills and, at Ideal Response, we only use the very best equipment to ensure a thorough clean with the best possible results.

THE PROBLEM

On 3rd August 2012, we received a call from a Loss Adjuster regarding a diesel spill at a private property in Mansfield. The spill was on a tarmac road outside of the property, which can be extremely tricky to remove.

THE IDEAL SOLUTION

Our specialists arrived on site 2 days later to carry out the [oil spill cleaning](#). We were tasked with the removal, clean up and disposal of the diesel, but due to the nature of the spill; we advised the client that it may be difficult to remove all traces of the oil before work began. Unfortunately, due to a technical fault on one of our vehicles, we could not complete the work the same day and returned the next morning to complete the job. The entire cleanup process took a few hours and the client was very happy with the results.
