## Smoke & Fire Damage Cleaning in Cambridge

CASE STUDY

### SMOKE AND FIRE DAMAGE CLEANING FOLLOWING FUSE BOX FIRE

Ideal Response operate across the UK carrying out flood, water and fire damage repairs as well as stone and carpet cleaning. In August 2012, our trained specialists were called out to a house in Cambridge following a fire caused by a faulty fuse box. The house was in the middle of being renovated so we needed to act quickly to minimise disruption to the construction team on site.

#### THE PROBLEM

On 21st August, Ideal Response received a call from Nicola Collins, Office Manager at Dean & Dean Construction. A fuse box in the house that they were renovating had caught fire and caused moderate damage to the property which resulted in delays on site and extra costs to the company.

#### THE IDEAL SOLUTION

Ideal Response attended site 2 weeks later to carry out fire damage cleaning so that the renovation and redecoration works could continue.

Our highly trained fire damage repair specialists got to work straight away cleaning the walls, ceiling and floors, ensuring that all smoke and soot residue was removed. The kitchen units were given a deep hygiene clean and thorough fire decontamination to ensure that no smoke damage remained. Finally, our team used ULV Fog to remove all traces of the smoke odour.
